Inspection of Jenapharm Plant DESTROY AFTER USE

by a Chinese Delegation

DATE DISTR.

2 January 1952

NO. OF PAGES

NO. OF ENCLS.

SUPPLEMENT TO REPORT NO.

A Chinese delegation inspected the Jenapharm Plant in Jena and its penicillin production installations between h and 6 July 1951. By order of the Berlin Central Administration, the Chinese were shown all details of the production processes and all production installations. According to the manager of the Chinese delegation, parts of a penicillin production installation had been shipped from the U.S.A. to China through the World Health Organization. However, the shipment of the remaining parts was stopped because of, the deterioration of Sino-American relations, and the Chinese were unable to put the incomplete installation into operation.
